**Sikhi Alpha Brings New Virtual Learning Resources to Houston Elementary Schools in Collaboration with EVERFI**

**Houston, Texas – March 1, 2022** -- Sikhi Alpha today announced the launch of a comprehensive curriculum designed to help elementary school teachers facilitate lessons around critical financial education and social-emotional learning (SEL) skills. The *Equity in Education* program suite consists of three programs - *Vault: Understanding Money*, *Healthier Me: Wellness Fundamentals*, and *The Compassion Project* - and is available to Houston elementary students and educators in under-resourced communities at no cost through the nation's leading social impact education innovator, EVERFI, Inc.

EVERFI's *Vault* course aims to educate students in grades 4-6 on important financial concepts, priming them to make informed financial decisions and set them up for financial success as they develop. For grades 1-4, *Healthier Me* focuses on wellness fundamentals to help grade school students make healthy, informed decisions when it comes to nutrition and fitness. *The Compassion Project* is a first-of-its-kind national initiative with a mission of ensuring that every primary school student, grades 2-4, in the U.S. understands what compassion is and how to demonstrate it in their lives.

"Sikhi Alpha is excited to partner with EVERFI to bring crucial support to empower communities within the Harris County region," said Sikhi Alpha Founder and President, Jujhar Singh. "Financial literacy and social-emotional development are critical skills required for students to help build their future foundation. We believe early adoption of these skills can improve intergenerational well-being, enhance decision-making, and outline paths to reach goals consistently."

"EVERFI works with teachers and students every day in schools across the country to bring critical skills education to life through the power of digital learning," said EVERFI Co-Founder and President, Ray Martinez. "Whether teaching kids the basics of finances, the importance of healthy eating and physical activity, or how to be more kind and compassionate humans, we know that the path to healthy habits starts with early education."
